

February 11 2022

PRESS RELEASE

Well we decided to try and run the SplashTV site in a Beta mode starting today and we will be running in Beta for a week as we want to see if it's going to be recieved well and we are hoping that it will be cause it would be nice to see this little Canadian Company make something big.

SplashTV is now set for launch in Beta and it will be launched at 12 noon PST time and that is 3 pm EST on the East Coast. We have decided to run it in a Beta mode right now cause we want to see how many people will use it in this Beta mode and to see how widespread the possibility of this new streaming service will go as we are all looking forward to it here in the Splash Media office in British Columbia Canada.

Now we would like to say that SplashTV will be a Canadian run company and it does only have one office right now and that is here in a town called Abbotsford, BC. The reason this service was started to just let everyone know is because we like you all have to pay for our other streaming service's and with how everything is going right now in the world we figured that it was time for a small company to try and make a huge SPLASH on things around the world and what better way to do so than this way.

Well we are getting set to launch the Beta version of SplashTV from Friday Febraury 11<sup>th</sup> 2022 to Saturday February 19<sup>th</sup> 2022.

We are looking forward to hearing from you soon.

Yours sincerely,

Splash Media
