PRESS RELEASE

So today is a big day for us here at Splash Media as we get to announce the release of a brand new streaming service here in Canada and it will be called SplashTV. Now SplashTV came into light as an idea back in November of 2021.

SplashTV was the idea of one guy and we now get to make that guy's idea a reality as we have started working on the site and we are hoping to have it up and running by the middle of February. Now we are hoping that this will make a big difference for everyone when the site officially get launched cause it will be free and unlike other service's we will never be charging for it no matter what cause we feel along with the creator and inventor of this site and company that everyone already pay's to much for Streaming TV and Movie's.

Now with this site you are promised that nothing on the site will ever be removed and it will have more movie's and series and show's on it than the other 3 major companies do pretty much at all time's cause we here at Splash Media and SplashTV believe that people should have the freedom to watch what they want to watch when they feel like watching it and not have to worry about all of a sudden why there series or show's are gone that they were watching say just acouple of days before hand.

Well we are hoping that everyone agree's with us here when we say that it is about time that there is a streaming service out there that care's for it's viewer's and give's them what they really want and that is all the movie's, show's and series that they can handle at a price that work's for everyone and that is completely: FREE.

We are looking forward to hearing from you soon.

Yours sincerely,

Splash Media
