

February 12 2022

#### PRESS RELEASE

Well as everyone should know by now is that SplashTV went live yesterday Feb 11 2022 at noon PST time in a Beta form and we have to admit so far from what we have seen regarding site traffic this is looking really good for everyone involved and that does include the people going to the site to check us out.

SplashTV is now set to start showing everyone the movie's that we have picked for this month as it is Black History month and we even want to get involved in a big way as a new company not just here in Canada but everywhere around the world. You will be able to find such title's as Bright starring Will Smith, Recall starring Wesley Snipes, Ghost Starring Whoopi Goldberg and so many more including two from Eddie Murphy in Coming to America and Coming 2 America ( this is the second one in the movie series ).

Now we do strongly support the Black Community and everything that they have done in North America here at Splash Media and SplashTV. We are hoping that you all go and check out the movies that have been listed and there will be more threw out the month as we have alot of great movie's for everyone to check out with there favorite actor/actress in it in the Black's in Movie section on the site so feel free to check that as often as you all would like.

Black History month run's from February 1 to February 28<sup>th</sup> and we know that we are late getting the movie's up for Black History month and we are very sorry about that but we have also had getting the site ready and up in Beta for everyone to enjoy on the mind for the most part of the last two week's and we hope and know that you all can understand that.

We are looking forward to hearing from you soon.

Yours sincerely,

Splash Media
