

March 1 2022

PRESS RELEASE

Well can you all believe that it is March and here we are with another International Woman's Month and SplashTV could not be any happier about it as we have some good movie's planned for everyone this month as well as a couple other surprise's.

SplashTV has the section Woman in Movies up right now and there is some good movie's already posted for Woman's month that include Actress's such as Drew Berrymore, Goldie Hawn, Demi Moore, Sharon Stone and so many more lovely Woman that we can't name them all here or that will even give away a couple of surprise's we are planning. Now we here at Splash Media are happy to see that SplashTV has a huge selection of movie's to pull from this month and we are hoping that you all like the choices that are made when they get posted.

Now all month both Splash Media and SplashTV will be running the hashtag's #womaninmovies, #womanleadingtheway, #internationalwomansmonth. There will be a couple more but we were asked by the office at SplashTV not to mention them and we are really looking forward to those Hashtag's cause they will be leading to a huge surprise for everyone.

Now not only is it Woman's month here at Splash Media and SplashTV but also around the world but there is also something else this month that alot of people celebrate and that is Saint Patrick's Day. Now we will be doing that as well here at SplashTV and Spalsh Media and there again we have been asked not to say to much about what is going on as we all want it to be a surprise and we are hoping that you are gonna be surprised.

Now on a sadder note you will all have seen by now that there is a huge problem going on in the world and you might notice that we have changed out our regular SplashTV Logo for a We Stand with Ukraine logo and we have even done that here at Splash Media. We would like to take this time and let everyone know that we do not condone Russia's actions. Now we do understand that the other Streaming Service's have opted out to show support and we do disagree with this aswell but hey they are not our proplem. We do understand that this is a big thing right now and we are hoping like the rest of the world that it will be and can be resolved quickly .

We are looking forward to hearing from you soon.
